EVENT OVERVIEW

Springer Nature's The Journal of Racial and Ethnic Health Disparities reports on the scholarly progress of work to understand, address, and ultimately eliminate health disparities based on race and ethnicity. Efforts to explore underlying causes of health disparities and to describe interventions that have been undertaken to address racial and ethnic health disparities are featured.

The Imhotep Connecticut National Medical Association Society (CTNMA) is an affiliate of the National Medical Association which represents “a collective voice of African American physicians and the leading force for parity and justice in medicine and the elimination of disparities in health.”

INVITED SPEAKERS

Chair

PROFESSOR SIR CATO T. LAURENCIN, MD, PhD, KCSL
President, Connecticut National Medical Association (CTNMA);
CEO of The Cato T. Laurencin Institute for Regenerative Engineering,
University of Connecticut

Professor Sir Cato T. Laurencin, M.D., Ph.D., K.C.S.L., is the Chief Executive Officer of The Cato T. Laurencin Institute for Regenerative Engineering at the University of Connecticut, an Institute named and created in his honor. He is the University Professor and Albert and Wilda Van Dusen Distinguished Endowed Professor of Orthopaedic Surgery.

Dr. Laurencin earned a B.S.E. in Chemical Engineering from Princeton University. He earned his M.D., Magna Cum Laude, from the Harvard Medical School and received the Robinson Award for Surgery. He earned his Ph.D. in Biochemical Engineering/Biotechnology from the Massachusetts Institute of Technology where he was named a Hugh Hampton Young Fellow .

Dr. Laurencin is the founder and pioneer of the field of Regenerative Engineering. In receiving the Spingarn Medal, the highest honor from the NAACP, he was named the world's foremost engineer-physician-scientist. Dr. Laurencin is the first surgeon in history elected to all the major national academies in America: the National Academy of Medicine, the National Academy of Engineering, the National Academy of Sciences and the National Academy of Inventors. A noted inventor, he received the National Medal of Technology and Innovation in ceremonies at the White House and was named Inventor of the Year by the Intellectual Property Owners Education Foundation.

Sir Cato T. Laurencin received Knighthood under the auspices of King Charles III of England through the Government of St. Lucia. Internationally, he is an elected Fellow and Member of Academic Societies throughout the world including the Royal Academy of Engineering, the Chinese Academy of Engineering, and the Indian National Academy of Engineering.

Dr. Laurencin is also renowned internationally for his work in Health Disparities and Health Equity. He is the founding Editor-in-Chief of the Journal of Racial and Ethnic Health Disparities, the leading Journal of the field. He is the co-founder of the W. Montague Cobb/National Medical Association Health Institute and served as its Founding Chair of the Board for over a decade. He is the recipient of the American Association for the Advancement of Science (AAAS) Mentor Award, the Beckman Award for Mentoring, and the Presidential Award for Excellence in Science, Math and Engineering Mentoring, from President Barack Obama. He received the Herbert W. Nickens Award from the Association of American Medical Colleges for his work in creating a fairer, more just world.
